

APPEAL FILED IN NATIONAL TAX OIL LEASE CASE CUTS FAVORED

CITES 64 ERRORS IN WYOMING OIL LEASE CASE

TEAPOT DOME APPEAL HEARD AT ST LOUIS

Action of Former Secretary of the Navy Denby in Leasing the Naval Oil Reserve to Sinclair Was Upheld by Judge Kennedy.

St. Louis.—Containing sixty-four assignments of error, the appeal of the government in the Teapot Dome oil lease case was filed in the United States circuit court of appeals here by C. M. Watts, assistant United States attorney of Cheyenne, representing Atlee Pomerene and O. J. Roberts, special government counsel.

The appeal, citing exceptions to the decision of Federal Judge T. Blake Kennedy of Cheyenne, handed down last June 19, which upheld the lease of the oil land to the Sinclair interests after the government charged it was fraudulently transacted, was filed too late to be heard at the December term of court. It probably will not be decided for a year.

Unless a special order is made by the court for placing the case on the May docket, which is heard at St. Paul, the case will be reviewed by the higher court in St. Louis in December, 1926.

The case was brought here because this city is headquarters for the eighth circuit, United States court of appeals, in which Wyoming is located.

The action of former Navy Secretary Denby in leasing Teapot Dome, former naval oil reserve, to the Sinclair oil interests, was upheld by Judge Kennedy, who ruled that former Interior Secretary Fall was justified in keeping the lease secret and that the late President Harding was within his powers when he transferred the reserve from the Navy to the Interior department.

JAPAN EXTENDS WELCOME TO AMERICAN AMBASSADOR

Tokio.—Leading newspapers here welcome the appointment of Charles MacVeagh of Chicago as American ambassador to Japan as additional evidence of the desire of the United States to offset the chilling effect of the immigration act upon the neighborliness between the two countries.

The editorials point out that MacVeagh has long been known as a genuine friend of Japan and that his works have demonstrated his sincerity toward all international relations.

It is fitting that MacVeagh take up the work reluctantly abandoned by Bancroft, who so thoroughly represented America and Americanism to Japan during his all too short residence here. Thus one newspaper voices the sentiment expressed by all.

A number of leading Japanese speak in high terms of Norman Armour, who is assured a most hearty welcome as a counselor of embassy. Prince Fushimi and Count Makino have stated that they are indebted to Armour for many courtesies on the occasion of their visits to America in 1918.

German Status in Pact Is Best

Berlin.—The coming security pact conference means much more to Germany than the mere conclusion of an agreement for safeguarding peace on the western front. Closely interwoven are question of an eastern pact, or at least a series of arbitration treaties with Germany's eastern neighbors, entry into the League of Nations, future relations to Russia and compensation for renunciation of claims to Alsace-Lorraine. Germany will enter the conference in a stronger diplomatic position than in any which she has participated since the war. For the first time Germany is not going as a feeble state, but will attend on a basis of equality to help solve a question which is fundamentally ethical.

To Clean Up Tijuana

San Diego.—A new campaign to clean up Tijuana got under way with the arrival at the border resort city of Nicholas Perez, chief of the Mexican immigration service. Some months ago Perez was delegated by President Calles to elevate the morals of Tijuana. Perez, Nogales, Mexicali and Tijuana. Foreigners engaged in the exploitation of vice at Tijuana are to be expelled and their places of business seized by the government, it was said.

Prince Leaves for Home

Mar Del Plata, Argentina.—The Prince of Wales is homeward bound after a six weeks' visit to South America aboard H. M. S. Repulse. On the eve of his departure for England, Walter entertained President de Alvear at a brilliant farewell banquet aboard the British warship.

SAYS REDUCTION LIMIT SHOULD BE \$350,000,000

SMOOT PLEDGES HIS SUPPORT TO TAX CUT

Advocates Repeal or Modification of Publicity Provision of Revenue Law—New Bill Will Reach Books in Time for 1925 Payments.

Washington.—After declaring that the aggregate tax reduction should be limited to \$350,000,000, Senator Smoot of Utah, chairman of the senate finance committee, in a statement pledged his support specifically to tax cuts, which, according to official estimates, would represent a total of more than \$640,000,000.

Senator Smoot did not include any estimates as to the loss of revenue resulting from the different proposals in his scheme, which was prepared for publication in the Nation's Business, the organ of the Chamber of Commerce of the United States. Unofficial estimates would make it appear that if all the Smoot proposals were incorporated in the new revenue bill taxes would be reduced by almost double the amount. Proposals favored by Senator Smoot, together with unofficial estimates obtained from other sources, as to their effect on revenues are as follows:

Reduction in securities to a maximum of not more than 25 per cent, or preferably 20 per cent, \$100,000,000.

Reduction in normal tax rates now ranging from 2 to 6 per cent to from 1 to 5 per cent, \$100,000,000.

Absolute repeal of estate taxes, \$100,000,000.

Repeal of automobile excise taxes, \$125,000,000.

Repeal of admission taxes, \$30,000,000.

Reduction of corporation earnings tax from 12 1/2 per cent to 10 per cent, \$185,000,000.

Grand total, not including other excise taxes which Senator Smoot says should be repealed, but to which he does not refer specifically, \$640,000,000.

Senator Smoot advocated repeal or modification of the publicity provision of the revenue law. He predicted that the new bill will reach the statute books in time to become effective for the March, 1926, payments of tax on 1925 earnings.

"There is much talk of raising the original exemption for the head of a family to \$5,000 on the theory that this would confer a direct benefit upon those of small incomes who make up approximately 90 per cent of the taxpayers," said Senator Smoot. "I am opposed to this."

"The average amount paid by those with incomes of less than \$5,000 is so small that I am sure there is no widespread demand among them for relief."

HIGH COURT DUE TO RULE ON ALIEN ACT

Washington.—The Chinese exclusion question has bobbed up with a new twist and the department of justice is considering a suggestion that the supreme court be asked to rule on it. The incident arises from an interpretation of the revised statutes by the ninth federal circuit court of appeals in California holding that they conferred citizenship "upon a Chinese son of a Chinese citizen of the United States, although the father had not up to the time of the birth of the son resided in the United States."

The department of justice believes an opposite interpretation of the section of the statutes is warranted and has not yet decided to accept the California court's ruling.

August Business Better

Washington.—The upward turn in the tide of business, noted in July, suffered a setback in the production phase in August, but the federal reserve board, in a statement, reported that distribution of goods continued in greater volume than in any of the summer months of 1924. Wholesale trade was 5 per cent larger in August than in July, while the retail business as reflected by department store and mail order sale was substantially greater than in August a year ago.

Physician Rescued From Bandits

Peking.—Dr. Harvey J. Howard of the Rockefeller Hospital, Peking, kidnapped by bandits in July, has been rescued. Dr. Howard was captured by Chinese brigands while visiting the ranch of Morgan Palmer, another American, on the Sungari river in Manchuria. Palmer was killed in the fight with the brigands. Palmer's mother, Dr. Howard's son and Herald Baldwin, formerly of Derby, Conn., and his wife and child escaped. Dr. Howard's mother resides in Los Angeles, as does a brother, Horace.

GIVE THEM A PLACE TO PLAY

Plenty of room for dives and dens (glitter and glare and sin!)
Plenty of room for prison pens (gather the criminals in!),
Plenty of rooms for jails and courts, (willing enough to pay!),
But never a place for the lads to race; no never a place to play!

Plenty of room for shops and stores (Mammon must have the best!),
Plenty of room for the running sores that rot in the city's breast.

Plenty of room for the lures that lead the hearts of youth astray,
But never a cent on a playground spent; no, never a place to play!

Plenty of room for schools and halls, plenty of room for art;
Plenty of room for teas and balls, platform, stage and mart.
Proud is the city—she finds a place for many a fad today,
But she's more than blind if she fails to find a place for the boys to play.

Give them a chance for innocent sport, give them a chance for fun—
Better a playground plot than a court and a jail when the harm is done!

Give them a chance—if you stint them now, tomorrow you'll have to pay
A larger bill for a darker ill, so give them a place to play.

—Dennis A. McCarthy.

LOS GATOS HORSE SHOWS DEFEATED BY SAN JOSE

Saturday afternoon in a series of 10 21-point games, the San Jose Horse-shoe club defeated the Los Gatos club on the latter's courts, by a score of 925 to 749, thus again retaining possession of the trophy.

On the San Jose team the three high score men were: Reil, 110 points and 41 ringers; Beal, 103 points, 40 ringers, and Bogert, 103 points and 37 ringers.

The three high score men on the Los Gatos team were: Suggs, 111 points, 44 ringers; Cornell, 103 points, 43 ringers, and Grant, 95 points, 30 ringers.

The score follows:

Los Gatos.	Pts.	Rgrs.
Cornell	103	43
Suydam	67	34
Ohlen	84	35
Grant	95	30
McCaughy	59	31
Countryman, Sr.	79	34
Torrey	71	30
Suggs	111	44
Walker	30	13
Sackett	50	18
Totals	749	312

San Jose.

Beal	103	40
R. Ellis	91	38
Bogert	103	37
Reil	110	41
Krupp	92	41
Densky	98	33
J. Newman	100	35
Denhart	48	14
Ollason	89	42
E. Ellis	91	26
Totals	925	347

Rigid enforcement of the plant quarantine laws has resulted in making the Sacramento valley practically clean from contraband plant material, plant disease and insect pests, at least so far as the incoming shipments of new plants are concerned.

Southern California triumphed overwhelmingly in the milk and cream scoring contest at the state fair, conducted by the University of California College of Agriculture and open to dairies of the state, making almost a clean sweep in some classes.

The picking of Thompson seedless grapes for the 1925 season is well started in Kings county, heavy picking having commenced. While the crop is not heavy the quality is fine, with practically no mildew and the berries of good size and well sugared.

Co-operation of the state highway commission's crews in Merced county's drive to combat spread of puncture vine, dangerous noxious weed, is assured, according to W. E. Glendon, and W. B. Latour, representing the maintenance department of the road body.

Because there is a shortage of classrooms in some Fresno elementary schools, it has been necessary for authorities to bring into use the double platoon system. This necessitates some pupils attending classes from 8 a. m. to noon and others from noon to 4 p. m.

Members of the congressional rivers and harbors committee will visit Stockton October 4 and will be taken on an all-day trip down the San Joaquin river to San Francisco, permitting them to gain first-hand knowledge of the waterway which it is proposed to deepen.

LECTURE ON MEXICO

Wilbur S. Tupper, traveler, and dramatist will tell the story of his recent visit to Mexico in a union meeting at the Methodist church, Sunday evening at 7:30. Everyone welcome.

While in Mexico Mr. Tupper met Calles, the President of our neighbor republic, several of the governors of the different Mexican States, and numerous other public officials, teachers, and missionaries.

Mr. Tupper will approach his subject from a variety of interesting angles—political, commercial, and archaeological. He is convinced that recent excavations reveal a civilization as ancient as those upon the Nile or the Euphrates.

Those who are familiar with Mr. Tupper's viril stage presence will not need a second invitation to hear this lecture; those who have not heretofore had this privilege should not fail to avail themselves of the opportunity Sunday night.

The following Friday evening, October 9, Mr. Tupper will reappear in Campbell, accompanied by his troupe of Boulevard Players. The evening's entertainment on this occasion will consist of Mr. Tupper's most recent play, "Harp and Sword." The admission charged for the players at their recent appearance at the art colony of Carmel was one dollar a seat. But it has been decided, in view of the ample capacity of our auditorium, to charge but 25 cents here—the same as last year.

CAMP FIRE GIRLS TO HAVE PICNIC

All Camp Fire Girls are looking forward with pleasure to next Saturday, as on that date they will have their annual picnic. This event has been anticipated by the girls since last June. Memorial Park, on Los Gatos creek, has been chosen as the spot for the affair. Basket lunches will be in order, with the Los Gatos Camp Fire Girls' acting as hostesses.

Girls who are wanting to earn honors in nature lore will have an opportunity to add to their store of knowledge by identifying many of the beautiful trees and shrubs that abound in this delightful spot.

Smokes Cigar at 101

Lyndhurst, N. J.—Philip Dobrow, 101 years old recently, started off his 102d year by eating a hearty breakfast and smoking a cigar and taking a half-mile walk.

Liability for Quake Hurts?

Los Angeles.—Whether employers are liable under the state compensation insurance act for injuries suffered by their employees caused by an earthquake, was the question to be determined at hearing started here before state officials.

What this country needs is a tax on knickers.

Vital statistics: hung juries can't hang anybody.

BABY HIT BY AUTO

Baby Joe Turturicci, three year old son of Mr. and Mrs. G. Turturicci, narrowly escaped death Saturday evening when he was struck by an auto driven by Frank Noyer, of Hamilton avenue.

The little tot had just left his father's machine to cross the street to his father when he was struck by the oncoming machine. Dr. Merrill was summoned and gave immediate attention to the case which was hurried to the hospital for treatment. For some time the little fellow was unconscious and it was thought he would die but he has since become quite alive. One foot is so badly injured he cannot use it and the extent of injury will not be known until an x-ray is taken.

NEW LINCOLN PICTURE PUBLISHED

In the October number of the Pictorial Review is an article, "The Unfathomable Lincoln," preceded by a very fine picture of him in regard to which the following paragraphs appear on the next page.

Feb. 27, 1860, Lincoln delivered the speech in Cooper Union, New York City, which secured for him the nomination as President.

"On this day Mr. Lincoln sat for the photograph which is reproduced herewith. It was by the process known as an ambrotype, named for its inventor, James Ambrose Cutting."

"The photograph was considered by Mrs. Lincoln as the best likeness of the several she possessed, and was among her treasures at the time of her death. It has been closely guarded by members of the family and by intimate friends and has never been reproduced for public distribution until the present."

Our readers will be interested to know that the James Ambrose Cutting referred to is a brother of our own "Father" Cutting.

A visitor at the F. H. Cutting studio this summer who is interested in art photography and its various phases, remarked about ambrotypes that they are practically like negatives, so that pictures can be printed from them. This picture of Lincoln is certainly a very fine one with a more softened tone than many.

OHIO-INDIANA STATE SOCIETY WILL MEET

The regular meeting of the Ohio-Indiana State society will be held in the Chamber of Commerce hall, San Jose, this evening at 7:45 o'clock and a program of novel and unique character, perhaps the first of its kind for many years, has been arranged.

A group of men have been chosen to put on an old-fashioned debate such as some of the society members used to hear and participate in in "the little red school house" on "literary night." The subject will be "Resolved that there are more celebrities from Indiana than ever were born in Ohio."

Speakers for the affirmative are: J. B. Mager, T. L. Wells, H. P. Salisbury, I. A. Latta, J. E. Hoham. Those upholding the negative are: F. E. Holliday, Joe Whitaker, J. A. Haliday, C. L. Kingdon, D. C. Elder.

SCHOOL CROWDED

Owing to the crowded condition at our grammar school another teacher has been added. Miss Margaret Singleton of Watsonville, will take the low first class.

The manual training room is being fitted up to accommodate the high fourth grade and the manual training classes are being held in the cottage.

A harvest supper and reception will be held at the Methodist church this evening in honor of the Rev. and Mrs. F. C. Farr who have been assigned to Campbell for their sixth year. Mr. Farr and family are greatly beloved by their congregation and the townspeople who are much pleased at the reassignment and the church is holding a special love feast.

FAREWELL GIVEN BLAIRS, MISSIONAIRES

The Congregational church parlors were the scene of a pleasant gathering Friday evening to bid farewell to Dr. and Mrs. Edward Blair, nee Catherine Cooper.

Artistically arranged baskets of flowers brightened the rooms where many life long friends of Mrs. Blair welcomed the opportunity of seeing her and her husband before their departure.

Mrs. Ellen R. Smith, on behalf of the Missionary Society, welcomed the visitors and expressed the pleasure of that body in having a representative of the local church in the mission field.

Short talks were given by Rev. W. E. Eckles, and Rev. Marshall of Sunnyvale, to which Dr. and Mrs. Blair responded. Several hymns were sung and Mrs. W. H. Gratton and Dr. W. I. Merrill sang solo numbers. Light refreshments were served while friends visited with the visiting guests.

Dr. and Mrs. Blair left the following morning for San Francisco and started the following day for Oregon to visit his family a few days. They were to go east via Oklahoma where they would stop at the town and visit the church which is sending them thru the Presbyterian Board of Missions, which has charge of the Persian field.

They will be located at Teheran, the capital of Persia, and Dr. Blair will be a medical missionary in the American Hospital there, where their hosts of friends know that they will do valiant service, and will hope to hear directly from them concerning life and customs in their new home.

HEAR BIG SERIES GAMES BY RADIO

The annual base ball classic will open Wednesday, October 7 at Washington, D. C. The world's champions—Washington Senators—will face the Pittsburgh Pirates who boast of the heaviest team of sluggers in either league for 1925. The present series promises to be fully as interesting and exciting as last year. All fans who followed the last game when Walter Johnson was called upon to stop the Giants still feel quickening of the pulse when they recall how the old veteran arose to the occasion. It was a real battle and the Senators under the wonderful leadership of "Bucky" Harris are again the winners of the American league race. Each game will be broadcasted play by play by radio and the "regulars" will again follow the games at the Willard Battery station where seats will be provided and the game posted on a huge score board.

Charlie Shumway is a regular fan and a radio bug so has united his fancies to give others the benefit of his plant. He deserves the hearty commendation of all enthusiasts in either line.

LOCAL MAN GETS DESERVED ADVANCE

M. L. Kennedy has been transferred to the Mercantile Trust Company's San Jose bank as receiving teller, and entered upon his new duties yesterday.

During his service in the Campbell Bank Mr. Kennedy has proved very apt and capable in acquiring the knowledge and usages of bank technicalities and has risen rapidly in efficiency. The patrons of the local institution will regret his removal from here, altho congratulating him upon his advance.

There is no addition to the present force of the Campbell branch contemplated and altho it will be a handicap, they expect to finish out the year.

"For better reception, use Willard B's."

If you are still skeptical about evolution take a look at the 1926 flivvers.

The trouble with the country is, too many people are working—other people.

The increase of suicides reminds us that life is what they make it and death is as they like it.

Gen. Andrews' job is to keep the U. S. bounded on all sides and on the side by the Eighteenth Amendment.

We suppose Commander John Rodgers' mother will say to him, "Now young man, the next time you try to fly to Hawaii be sure to take your bathing suit along."

Wouldn't it be nice if every home could have a phonograph record of all the sweet words Papa and Mama poured into each other's ears during their courtship? Boy, them was the days!

HELPING OURSELVES BY HELPING THE OTHER FELLOW

Let us say right away this is no new thought but it provides an opportunity to point out that the PRESS has always endeavored to be frank and fair in its dealings with the public. The very name "newspaper" suggests at once a sort of "open diplomacy" with its friends, its enemies, if such there are, and its neutrals. No newspaper can expect to reach its highest destiny and at the same time side-track, white-wash, back-slide, or side-swipe an issue that needs pressing or a cause that deserves to be championed. It is true that the old school of editorial harpooning is largely a thing of the past; but there are duties to perform as well as privileges to enjoy in the newspaper field that bring about the necessity for careful study and a charitable attitude.

The PRESS wants to keep before its readers and the public in general at all times its desire to share equally and contribute its portion of service to the common good of Campbell and Santa Clara County. In order to do this it must have the continued support of the community that embraces its circulation area.

"Put out a good paper and you'll get the support," said a leading merchant to us the other day. To which we answered, "Support the newspaper and we will put out a good paper." Thus the more or less "vicious circle" is created. But the circle would not be "vicious" if both parties to the proposition worked simultaneously toward the common end, namely a well-supported newspaper and a well-served public.

This can be done, and this has been done, overnight, by COOPERATION. When all work together, all benefit. When all pull back, waiting for the other fellow to move, all are injured. It is true with the merchants of Campbell, or any other place. It is true in all lines of business. Thus we see how clearly, after all, is the simple matter of prosperity, when loyalty to one another's institutions and understanding of one another's problems is made paramount, even if for no other reason than the selfish one of helping ourselves.

SHIRT SLEEVE PATRIOTISM

From childhood we have been taught to respect the flag, to love our country and to defend it; to obey laws and be honest in our every-day transactions of life. We have had instilled into our lives the need for dependence upon the great institutional triangle of existence—the home, the school, and the church. Fraternalism is so imbedded into natures that we naturally seek the hand of fellowship in lodge, club and social circle. All the splendid virtues and heroic deeds in the lives of the men and women who have made history have been paraded before us until the desire to emulate their examples exists within us and becomes a part of the lives of the more ambitious among us.

From these things the patriotic impulse springs. No clatter of hoofs or rumble of drums is entirely necessary to arouse the latent spirit in the breast of man to carry forward the banner of free government, public education, respect for law, and safety for the wholesome institutions of society. Clearly, we do not lack for high-minded examples of patriotism. What troubles the average man or woman how to make both ends meet in the business world and in the gentle art of providing the daily bread. Pulling against this great impulse of patriotism, that is half born in us and half acquired through life, is the almost constant annoyance of the smooth-tongued crook, the no-tongued deadbeat, the two-gunned bandit, and a lot of inequalities in business and commerce that renders the next meal a precarious question.

A government that looks after the needs of the common man will not lack for patriots when the call is issued. Contentment among people, both nationally and locally, is one of the greatest boons any nation can possess.

HELPING THE HOME OWNER

According to expert opinion the high cost of home-ownership will tumble when the California Plan for progressive exemptions goes one step further. We have gone far already in the right legislation direction. Many kinds of personal property are now exempt from taxation. All of them should be. The home owner deserves this relief. At present he has to pay at least a dollar too much per thousand feet of lumber to absorb the personal-property tax of the local dealer. He pays many more dollars too much to absorb the taxes of all the other business enterprises in the chain of lumber production from forest to consumer. The California Plan will reduce the price of lumber by an amount equal to all these taxes. It will bring the joys of home ownership to many who cannot pay the high prices for building materials that now prevail.

"I could have---"

How often have you heard a friend say what he *could* have done if he had had a little ready money to take advantage of an unusual opportunity? Perhaps you have used the phrase yourself.

The surest way to be prepared for Opportunity is to set aside money regularly in a Mercantile Savings Account. Don't spend it all!

A small amount deposited regularly—every week or every month—will reach worth-while proportions in a surprisingly short time.

Word has been received from Miss Verna Cutting that she arrived at Corvallis, Ore., O. K.

"Dad" and "Ma" Inman held open house Sunday when all the clan, old and young, enjoyed a family reunion.

Mr. and Mrs. Hubert A. Booksin of Meridian Road are receiving congratulations on the birth of a son, Friday, September 25.

C. D. Cutting has been having a serious time with heart trouble and his family is much concerned yet as to the immediate outcome.

Friends were pleased to see W. H. Woodbury out again, Monday after a serious illness which confined him to the house for a month.

Mr. and Mrs. E. A. Barker left Sunday for a combined business and pleasure trip to Petaluma and Santa Rosa expecting to be gone a week.

Born: to Mr. and Mrs. Lloyd Malech, nee Donna Snapp, a daughter, on September 20, at Morgan Hill. The little miss has been named Betty Jane.

Mr. and Mrs. George Marston are the proud parents of a son, George Coburn Marston, born September 29. The young man tipped the scales at 9½ pounds.

Mr. and Mrs. J. E. Gamo arrived home Friday from an enjoyable auto trip up to their former home, Loyalton, where they spent several days visiting old friends.

There will be a Benefit Dance given by Ada Rebekah Lodge, at I. O. O. F. Hall, Saturday evening, October 3. Music by McDonald's Orchestra. Come and bring your friends.

The C. Strom family motored to Concord Sunday to visit friends. They brought back some very fine specimens of grapes, one of the larger bunches being now on display at the Press office.

Mr. and Mrs. H. C. Smith, accompanied by Miss Kittie Johnson of the high school faculty, went to San Francisco Saturday where they heard the opera, Samson and Delilah, at the Civic Auditorium.

Friends of Mrs. Florence Carlisle Rae will be interested to learn of the birth of a daughter on September 28 at Martinez. The young lady weighed nine pounds and is the first granddaughter of Mrs. C. E. Case.

Mr. and Mrs. C. E. Whitney went to King City yesterday to locate a house for the winter. That region being much drier than this during the winter months, Mr. Whitney can better control his troublesome asthma.

Mrs. L. Genasci and Mrs. Storni, went to San Francisco Monday to attend the funeral of their sister, Mrs. A. Gollicioti, whose death occurred September 24. Mrs. Storni has since returned to her home at San Luis Obispo.

G. Famo and family, of Saratoga, have rented Mrs. Alice Smith's house on Harrison Ave. and are moving in. Mrs. O. J. Nicholls is moving to south second street where his family will occupy temporary quarters erected on the property recently acquired by Mr. Miner, Mrs. Nichol's father.

Mr. and Mrs. W. G. Haines and their son, Lawrence and wife, of Nunda, N. Y., who are touring the United States, stopped in Campbell last week for a visit with their old friend, Wm. Skiff. They came the northern route and will return the southern and have been thoroughly enjoying their trip.

Wm. Skiff received word last week that his daughter, Miss Miriam, who has spent the summer in the east, was ill with typhoid fever. His latest report is very encouraging as her temperature has been normal for two or three days. However she did not expect to be able to return to California until the last of October.

JOHN J. CASWELL

John J. Caswell, one of Campbell's highly respected citizens for many years passed away at his home in Cambrian district Sunday after an illness of several months.

The deceased was a native of Canada, aged 78 years at the time of his death.

Owing to failing eyesight in recent years he was unable to do much work but had retired and built himself and wife a pretty home on the highway south of Campbell.

Those who survive him are Mrs. Patience E. Caswell, a son, Albert, at Eugene, Ore., and two daughters, Mrs. Geo. B. Campbell and Mrs. J. J. Kilpatrick, of San Jose.

The sincere sympathy of the community is extended the bereaved ones in their sad hour.

ANTONIO GARCIA

Antonio Garcia passed away September 23 at his home on South Second street after a lingering illness. The deceased was a native of Portugal, 60 years and 4 months old, a highly respected citizen of our community.

He is survived by his wife, Mary A. Garcia, two brothers and a father to whom the sympathy of their friends is extended.

Funeral services were held Friday morning from the family residence and St. Martin's church. Interment was at Santa Clara Catholic mausoleum.

NORMAN ANGEL WINS

Norman S. Angell, of Campbell, was among the thirty-two winners of the Edward Frank Kraft prizes for freshmen who entered the university either January, 1924, or August, 1924, the awards for which were announced following the return of President W. W. Campbell to the Berkeley campus.

Of the thirty-two recipients of the Kraft prizes, twenty-two of the freshmen were of the College of Letters and Science, four from the College of Commerce, four from the College of Engineering, one from the College of Chemistry and one from the College of Agriculture.

WE DO, DON'T YOU?

Every now and then some subscribers rise to denounce their local newspaper for mistakes which appear in its columns. Which takes us back to the days when, as a cub reporter, we were trying very hard to illuminate the pages of a third-rate newspaper in an Eastern city. The old editor, under whom we worked, got tired of constant complaints about editorial mistakes.

"We made a mistake in last week's issue," he wrote. "A good subscriber told us about it. The same day there was a letter in our postoffice box that didn't belong to us. We called 98 over the telephone and got 198. We asked for a spool of No. 50 thread and when we got home the missus found it was No. 60. The train was reported 30 minutes late. We arrived at the depot 20 minutes after train time and the train had gone. We got our milk bill and there was a mistake of 10 cents in our favor. We got sick and the doctor said we were eating too much meat. We hadn't tasted meat for two months. We ordered a tin of black shoe polish and later found they gave us brown. The garage man said the jitney was missing because it needed a new timer. We cleaned a spark plug and it's run fine ever since. Yes, we made a mistake in last week's paper."

All men are born free and equal but some of them get married.

The Campbell fire equipment is being improved by the installation of sirens in place of bells on the fire engine and hose cart. This will make it easier for machines and pedestrians to locate the machines and clear the way.

A TRAFFIC OFFICER GIVES HIS OPINION OF RECKLESS DRIVING

A traffic officer stepped out into print the other day and started to give his opinions without fear or favor on the motoring public.

"The law-abiding, careful driver knows that the traffic officer is his friend," wrote this member of the state traffic force in the National Automobile club weekly, "and is glad to see an officer arrest the vicious driver; perhaps he does not know that the reckless one is given a summons to appear in court at a later date and is then permitted to proceed and continue to hog the road, cut in, and in other ways menace the motoring public; but such is the law as it now stands on the statute books. It is a matter of record that a driver who was out on bail for reckless driving, but still permitted to operate an automobile, dashed through the streets of San Diego at high speed and wrecked his own car, as well as the one with which he collided, not to mention the fact that two lives were snuffed out.

"Accidents have increased until it is appalling to read the death list caused by careless driving. Convicted reckless drivers are driving on our highways today, imperilling the lives of all with whom they come in contact. Don't take my word for this, I thought I have clippings of newspaper accounts of all the serious automobile accidents that have occurred in the last five years, as well as copies of arrest sheets to prove every word I say and they are open to the public. Go down to the courthouse or the police station and look at the records; they are open to inspection.

"I believe that the public is to blame for this condition and the public suffers the consequences and will continue to suffer until the 98 per cent of careful drivers demand that the 2 per cent of reckless drivers are put in jail and prohibited from operating an automobile on the highways of California.

"The duties of the policeman, whose salary is paid by you, are to preserve the peace, protect life and property, prevent crime, and when crime has been committed, arrest the criminal.

"When a hold-up man or a pick-pocket is arrested a jury speedily brings in a verdict and the man is soon on his way to the penitentiary where he cannot prey on the public for a while at least. When a reckless driver is arrested, he is, too frequently, acquitted, and he drives away from the courtroom in his automobile to repeat his assaults on the public. It is a well known fact that a pick-pocket is rarely armed and never injures his victims, yet he gets a quick trip to prison, while, on the other hand, the speed fiend and reckless driver, armed with a powerful automobile, cuts down children at school crossings, kills pedestrians who are alighting from or boarding street cars, and cripples or takes the life of the bread winner of a family without fear of punishment. The only loss of liberty he suffers is when an officer locks him up temporarily until he can furnish bail, or holds him for the coroner. If he has taken a life, a coroner's jury, nine times out of ten, brings in a verdict of an unavoidable accident and a vote exonerating the defendant."

ANOTHER FALSEHOOD NAILED

On the occasion of the Governor's visit recently to Humboldt County a false story was put out by a metropolitan yellow news service and widely copied. The Governor was charged with speeding in his automobile and with having been admonished by a local constable. Many embellishments were added to the false story giving the alleged conversation between the constable and the Governor. Chief Gleason of the San Francisco traffic office was said to have been with the Governor. This was all a falsehood. The Governor did not drive a car in Humboldt County, his car was not in the County, he was not and could not have been admonished, he was not accompanied by Chief Gleason, these, and the alleged conversation were all faked by the yellow boys of the saffron press service.

But the falsehood has gone forth throughout the state and hundreds of citizens have been misled. The governor has taken the pains to write a correction to every newspaper which has reprinted the weird yellow tale.

A child will always give affection for affection.

The greatest crime of the age is the neglect of children.

Children are a heritage from the Lord. Blessed is the man who has his quiver full of them.

"The hand that rocks the cradle," said the husband to his complaining wife, "is the hand that rules the world."

"Then you come in and rule the world for a while; I want to take a nap."

THE BANKER-EDUCATOR PLAN TO PROMOTE BETTER AGRICULTURE

By D. H. OTIS,
Agricultural Director, American Bankers Association

Whenever bankers desire to promote actively agricultural improvement in their communities, the state agricultural colleges stand ready to show them the way and to give expert assistance. The purpose of this article is to illustrate the way in which the colleges are getting in contact with the banks, and the kind of assistance they render.

As soon as the college has a list of the banks in the state desiring to adopt plans to aid agriculture as indicated by project blanks sent out to all the banks in the state, by the State Bankers Association Agricultural Committee, it gives practical suggestions to each banker on the list as to what he can do to stimulate, organize, and conduct the

work in the particular project he has selected. Then either a department specialist from the college or the county agent gets in personal touch with the banker to assist him in an advisory capacity.

Samples of the project outlines are given below to illustrate the details of the procedure the college takes in accomplishing its plan.

College Provides Expert Advisers
In counties with no county agent a list of the banks desiring to carry on a project is sent to a specialist at the state college, according to the project listed. For instance, the banks desiring to carry on the farm accounts project are assigned to the farm management specialist, those desiring to carry on the legume project to the agronomy specialist, those interested in boys' and girls' club work to the junior extension specialist, and so forth.

In counties that do have a county agent a list of the banks and the projects in which each is interested is sent to him with a request that he get in touch with the bankers and help them in regard to the various projects. The next step by the college is to write to each banker on the list sending him project outlines and informing him that the county agent or a specialist from the college will get in touch with him. If there is no agent in the county this letter reads as follows:

Union State Bank,
Bankville.
Gentlemen—You will find enclosed a brief outline of the farm accounts project in which you have indicated your interest to your State Agricultural Committee and to the Agricultural Commission of the American Bankers Association. I am sure that the specialist from the agricultural college will be pleased to assist you in carrying out the suggestions indicated. We have asked him to get in touch with you.

Director, Agricultural Extension.

The letter to bankers in counties that do have a county agent informs them that he will get in touch with them.

Suggests Things the Banker Can Do
The project outlines sent to each banker give specific suggestions as to the things he can do to organize the work in his project, and the part he can take in carrying out the work. The more simple and concrete these

A Southern Pacific surveying crew, camped on the Happy Camp mountain, west of Canby, Modoc county, is engaged in running a preliminary survey to the Pitt River valley. This is believed to indicate that this company is planning an extension from Cornell, in the northwest part of Modoc county, to Alturas at an early date.

A special road tax of 20 cents for the construction of a county road through the North Fork canyon of the Feather river is included in the tax rate of \$2.50 set by the Plumas county board of supervisors. Another road levy of 20 cents was made to cover the cost of replacement of bridges and building of several new roads.

The Lake county board of supervisors tonight affirmed its action of some weeks ago determining not to join the Golden Gate bridge district. Lake county originally signified its intention of becoming part of the district which will finance the bridge. The supervisors later rescinded their action.

The new Lions' clubrooms at Fairfield, Solano county, were dedicated with approximately a hundred visitors from a dozen dens in this region, representatives attending from Oakland, Berkeley, Lodi, Richmond, Santa Rosa, Woodland, Walnut Creek and Sacramento.

Earl S. Gardner, prominent in business circles in southern California and as secretary-treasurer of the Federal Farm Loan Association, died at the Santa Monica sanitarium after a lengthy illness. He was 39 years old.

Reports from the California state fair, which closed at Sacramento, show that there were 425 rabbits, 340 chickens, 175 bantams and 375 pigeons on exhibition.

Plans are being prepared for a 3-story addition to the present San Jose hospital. The improvements will cost about \$70,000.

Fay Lanphier, "Miss California," the Alameda girl who won the Atlantic City beauty contest when she was declared the most beautiful girl in America, is to become a motion picture star at once. This has long been her ambition, but she had expected to wait several years before having it gratified.

Arthur N. Bierkle of Petaluma, Sonoma county, accompanied by Mrs. Bierkle, has left for Nanking University, China, where the couple will study the languages and will later take charge of a missionary district in the Orient.

suggestions are the more valuable they are to the banker. Following are samples of such project outlines:

Farm Accounts Project
1. Banker can select group of farmers who can and should undertake the work of farm accounts.
2. Arrange with county agent or specialist from agricultural college for first meeting of the group and select an account book.
3. Assist individuals at their request with information relative to entering accounts and other data properly.
4. Act as or select leader for the group.
5. Assist in checking inventories as a means of securing individual financial statement at close of the year.

Boys' and Girls' Club Work
1. The banker can arrange with the county agent or the specialist of the agricultural college for organizing a club.
2. Plan to present various types of club work at the next meeting and perfect the organization of a local club.
3. Banker may act as local leader of the club.
4. Cooperate with county agent or specialist in annual "Achievement Day."
5. Banker may offer prizes for club work or otherwise assist in financing same.

Legume Project
1. The banker can get information from county agent or specialist from the agricultural college on the value of alfalfa, soy bean, or sweet clover crops to farmers of the community.
2. Arrange for meeting of interested farmers with county agent or specialist.
3. At this meeting county agents, specialists, or others will discuss:
(a) Value of crop.
(b) Seed supply and varieties.
(c) Methods of handling the crop.
(d) Use and disposition of crop.
4. Plan with county agent or specialist meetings and demonstrations on plots or fields.
5. Secure exhibits for community or county fair.

Cow Testing Associations
1. The banker can arrange with county agent or specialist from agricultural college for meeting of interested group of farmers in the community for the purpose of organizing a cow testing association.
2. Banker may act as leader, and with county agent or specialist plan to visit prospective farmers who may join the association.
3. Organize for work and assist in securing testing equipment and other materials whenever necessary.
4. Call meetings periodically to discuss association business and hold picnics or tours.
5. Banker with county agent or specialist may arrange for C. T. A. booth at community or county fair giving testing demonstrations and explaining work of association.
This constitutes the preliminary work by the college which paves way for constructive work by bankers in banker-farmer project.

Weather Delays MacMillan's Return
Washington.—Commander MacMillan advised the National Geographic Society that his Arctic expedition had been so delayed by bad weather that it probably could not reach the United States before October 10.

Professor Found Hanged
Lexington, Okla.—The body of a man found hanging by a wire from a bridge near here was identified as that of Dr. Thomas Breat Moore, associate professor of economics at the University of Oklahoma.

Hearing on the application of the East Bay Municipal Water District to divert water from the Mokelumne river, twenty-five miles east of Lodi, for its \$39,000,000 project was held in Sacramento before Edward Hyatt, Jr., chief of the division of water rights, and E. W. Kramer of San Francisco, representing the federal power commission. The East Bay district has applied for permission to divert 200,000,000 gallons of water daily to be used in providing a domestic water supply for the city of Oakland and other Eastbay and San Joaquin and Sacramento valley towns.

With approximately nine hundred building permits issued in Santa Barbara since the earthquake of June 29, last, and the reconstruction program well under way on a huge scale, announcement was made by a San Francisco architect that the new \$1,000,000 county courthouse will be of steel frame and will be erected on the site of the present courthouse, which was badly damaged by the shock.

Intoxicated by a meal of dried, fermented grapes, a big buck deer ran amuck on a ranch north of San Rafael, broke into a pasture, charged a herd of cattle, hooking several, partially demolished a barn and tore down several rods of barbed wire fence. When last seen, the deer, his one undamaged antler crowned by a garland of brush, was staggering over the hills into the timbered country.

Declaring that public convenience and necessity do not require the proposed service, the railroad commission has denied the application of A. Pasquini for a certificate of public convenience and necessity to operate an automobile passenger, baggage and freight service between Sacramento and Yuba City and the intermediate points of Elk Horn, Verona, Nicholas, Tudor, Abbot and Oswald.

THIS IS FIRE PREVENTION WEEK

Fire Prevention Week is an occasion which each and every member of this community should observe with the keenest interest. Fire is no respecter of persons—it may visit the largest structure or the smallest house in the community—who can tell? But there are a number of ways in which we, working as a community, can prevent many possible fires. By cleaning up unnecessary and unsightly rubbish, by repairing and keeping in good order stoves and furnaces, and in many other ways we can reduce the fire hazard to a point where a fire will be a rare happening in Los Gatos. So let's all work together during this week—simply as a start toward keeping our town and the surrounding territory as free from the fire hazard as possible. Cause means nothing afterwards. Prevention means everything. Guard against fire—save your life, your income, your job, your wages.

Prevention is better than cure!

STOCK PROMOTION COMPANIES MUST OBEY NEW RULING

Beginning October 1, new promotion companies in California, financing through the sale of stock to the general public will be permitted to pay a selling commission only upon the amount of cash received on account of the payment for stock subscriptions. This ruling was recently made by Edwin M. Daugherty, Commissioner of Corporations. Investigation by the department showed that in many instances full selling commissions were allowed to companies or their agents from the initial payments on stock purchases.

This practice, it was stated at the department, has placed some companies in the position of merely stock jobbing concerns, organized chiefly to obtain commissions in the sale of their securities. Under the method which the commissioner declares must be discarded, a company might sell \$1000 of its stock, receiving 40% in cash or \$400 as initial payment and taking notes for the balance; pay out 20% of the \$1,000 in commission, or \$200, thus leaving \$200 for the company's financing. Should the subscriber come bankrupt or for other reasons be unable to meet payment on his notes, the amount paid out by the company as commission would in this case, be 50% of the sum received by the company, instead of 20% as contemplated in its permit. The opportunities for subterfuge, it was declared at the department, are too great, to permit such a condition to continue.

SPEED LIMITS

While motorists should be familiar with the various speed limits permitted, every automobile owner should know first that the California Vehicle Act provides that an operator of a motor vehicle must at all times drive at a careful and prudent speed and not faster than is reasonable and proper, having due regard for the traffic upon the highway, width and surface of the road and whether it is wet or dry.

The operator of a motor vehicle must also drive at such a speed as not to endanger the life, limb or property of any person. Although a motorist may be driving within the speed limit allowed in any district or territory, he may be driving too fast for safety under the prevailing circumstances of heavy traffic or wet or slippery pavement which would make him guilty of violating the law and punishable by a fine or imprisonment.

The speed limits are divided substantially into three classifications, namely, 35, 20 and 15 miles per hour.

The maximum lawful speed limit under any circumstances is 35 miles per hour.

Twenty miles per hour applies in "residential districts." These districts are required to be signposted on the right hand side of the road with triangular signs colored red and inscribed in white letters "20 mile speed limit."

The speed limit of 15 miles per hour applies in the following instances:

1. To "business districts." Such districts are required to be signposted on the right hand side of the road with green triangular signs bearing the inscription "15 miles speed limit" in white letters.

2. When passing a school while persons are entering or leaving the grounds, the speed limit is 15 miles per hour.

3. In traversing or going

A perfect lady never chews tobacco in public or shoots any man unless he is her husband.

Guardian of 4,329,528 wards. The California state industrial accident commission is the guardian and protector of 1,160,561 workers in the state and of their 3,168,967 dependents. These were the figures communicated by President John A. McGilvray of the commission to the Workmen's Compensation Bureau of New York City, in response to his query regarding the California state workmen's compensation law and its operations. "Our law provides for awards for workers who are injured and live and awards for dependents when workmen—and women, too—are killed in industrial accidents," McGilvray wrote.

According to a recent statement issued by Lloyd L. Root, state mineralogist, the mineral industry led the entire state in value of production in 1924. Root places the value of the mineral production last year in California at \$370,000,000. This surpasses the agricultural output for the same year by \$7,000,000, according to Root. Heretofore agriculture has led in production. Although much of the increase is due to greater oil production and higher prices, yet most of the fifty-four minerals produced showed an increase.

around curves or corners when driver's view is obstructed within 200 feet.

4. In traversing an intersection of highway when the driver's view is obstructed and he cannot see 200 feet along the intersecting roads when he is within 100 feet of the intersection. The same 15 miles per hour speed limit applies in traversing a grade crossing of any steam or electric or street railway, when the driver's view is obstructed in both directions along such railway for 400 feet when within the last 100 feet of the approach to the crossing.

A violation of these speed limits subjects the guilty party to arrest, and if committed at the time of a collision, liability for civil damages rests with the driver if it can be shown that the violation was the proximate cause of such collision.

SUMMONS
In the Superior Court of the State of California in and for the County of Santa Clara.
FLORENCE A. BEMENT, Plaintiff,
vs. CLAUDE G. BEMENT, Defendant.
Action brought in the Superior Court of the State of California in and for the County of Santa Clara, and the Complaint filed in the office of the Clerk of said County of Santa Clara.

THE PEOPLE OF THE STATE OF CALIFORNIA send greetings to CLAUDE G. BEMENT, Defendant. You are hereby directed to appear and answer the Complaint in an action, entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Santa Clara, within ten days after service on you of this Summons, if served within this County, or within thirty days if served elsewhere.

And you are hereby notified that unless you so appear and answer as above required, the said plaintiff will take judgment for any money or damages demanded in the Complaint as arising upon contract, or will apply to the Court for any relief demanded in the Complaint.

Given under my hand and the seal of the Superior Court of the State of California, in and for the County of Santa Clara, this 14th day of September, A. D. 1925.
